1987-1988

DEVELOPED BY:

Robert S. Black, Director
Office of Programs for the Handicapped
Columbia, South Carolina

The information contained in this document reflects the total number of handicapped pupils, ages 6 through 21, served by the public schools as reported in the FY'88 Annual Data Report required by Public Law 98-199, Section 618. This federal report is based on the handicapped population reported on the December 1, 1987 Child Count. The format was changed from the previous year owing to modifications in the federal reporting system and, therefore, **does not** include handicapped children ages 3 through 5. I hope that this publication will prove useful as a source of information relative to services to handicapped children provided by the public schools of South Carolina.

PUBLIC LAW 99-457 PRESCHOOL GRANT
FLOW THROUGH FUNDS
FY 1988

Preschool Grant Funds were awarded to eighty-six (86) LEAs and sixteen (16) other agencies during school year 1987-88. The grant awards/contracts were issued for the purpose of providing special education and related services for three through five year old handicapped children. Funding was determined by the December 1, 1986 Count (ages 3-5) and a projection of additional children to be served by each agency. South Carolina's grant award totaled $5,304,500.00. Of this total, 94.3% was allocated to LEAs/other agencies. Based on the funding formula, each agency received $300.00 per child on the December 1, 1986 Count and $2,874.00 for each child indicated on the Estimated Increase Count. The funds have an entitlement period of July 1, 1987 - June 30, 1988.

EVALUATION, DIAGNOSIS AND PRESCRIPTIVE PROGRAM

The State Department of Education, Office of Programs for the Handicapped, has set aside a small portion of the Department's Part "B" funds in order to provide diagnostic evaluations and educational prescriptions for handicapped children exhibiting complex and unusual handicapping conditions. These educational diagnostic evaluations are available through the "Evaluation, Diagnosis and Prescriptive Program" (EDPP) and cannot supplant diagnostic/prescriptive services which are traditionally the responsibility of local agencies.

The diagnostic and prescriptive profiles obtained through this program are designed to be utilized as an aid in planning and implementing individualized education programs which ultimately accrue to the benefit of the child. Referrals accepted for evaluation are restricted to those children manifesting unusual or complex handicapping conditions.

Diagnostic centers operative during the 1987-88 school year are listed in the chart below with the number of children receiving services.
